

TRAINING THAT DEVELOPS
REAL CAPABILITY

ISEP Introduction to Net Zero

S005

ISEP Introduction to Net Zero

Climate action is now a business imperative. The ISEP Introduction to Net Zero course provides learners with a clear and practical foundation in what Net Zero means and how it applies to their organisation. This short course is ideal for raising awareness across teams and enabling meaningful engagement with sustainability strategies.

In just two hours, learners explore the science, terminology, policy context and communication principles surrounding Net Zero and return to the workplace ready to take informed, practical steps in supporting their organisation's sustainability strategy.

Duration & Price

Duration: TBC

Delivery mode: This programme is available In-Company

Dates & Locations

In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.

In-Company Training

What's covered?

This course provides a comprehensive yet accessible introduction to the core principles of Net Zero and how these can be applied in the workplace.

Topics include:

- The concept of Net Zero and related terms
- Scientific rationale and climate urgency
- Irish and international policy frameworks
- Business and environmental benefits
- Principles of a credible Net Zero strategy
- Communicating Net Zero responsibly and avoiding greenwashing

Content is practical and engaging and can be tailored to suit organisational needs.

Who should participate?

This introductory course is relevant for all roles and sectors, regardless of prior knowledge. It is especially suited to:

- Staff at all levels seeking to understand the principles of Net Zero
- Organisations looking to engage employees in sustainability strategy
- Teams embarking on a Net Zero journey who require a shared language and baseline knowledge

English Language Competency

A good standard of written and spoken English is important to engage effectively with this programme.

What will I learn?

On successful completion of this course, learners will be able to:

- Define the concept of Net Zero and explain its relevance
- Describe the scientific basis and urgency behind climate action
- Summarise key Irish and international Net Zero policy drivers
- Identify the environmental and business benefits of achieving Net Zero
- Outline the key elements of a credible Net Zero strategy
- Explain how to communicate Net Zero goals without greenwashing

Learners leave with the clarity needed to engage with Net Zero initiatives meaningfully.

How will I be assessed?

This course is ISEP certified on full participation and completion of course. There is no assessment. An ISEP certificate will only be issued if requested by a delegate, and on payment of the appropriate fee.

How do we train and support you?

Our training approach is practical, highly interactive and discussion-based, with flexibility to meet organisational needs:

- Pre-training consultation for In-Company courses to tailor content to organisational needs
- Real-world application through practical exercises, case studies and group activities
- Comprehensive course material reviewed and updated regularly to reflect industry standards
- Flexible delivery: live virtual training or onsite sessions to suit your team
- Real-time support from expert tutors

Class sizes are generally limited to 12-15 to support personalized learning and individual support.

Programme accreditation

This programme is accredited by the Institute of Sustainability and Environmental Professionals (ISEP), a membership body for over 15,000 sustainability professionals worldwide. ISEP supports individuals and organisations in achieving globally recognised standards for sustainable practice, enabling members to lead change across industries. For further information, visit ISEP's website.

ISEP Certification is available on request following course completion (fee applies).

Professional body membership

ISEP is the membership body for more than 15,000 environment and sustainability professionals worldwide. ISEP support individuals and organisations in setting and achieving globally recognised standards for sustainable practice, in turn driving the development and uptake of sustainability skills. ISEP add value for their members by providing the knowledge, connections and recognition necessary to lead change within organisations at all levels. ISEP are independent, international and apply the combined expertise of their members to provide evidence and influence decision-making, working towards a vision of transforming the world to sustainability. ISEP is committed to global sustainability, for everyone working, studying or interested in environment and sustainability.

More Information on ISEP is available at [ISEP - The Institute of Sustainability and Environmental Professionals](#)

How can you progress?

Following completion, learners may progress to more advanced sustainability, environmental management or auditing courses. These may include:

- ISEP Environmental Sustainability Skills for Managers
- ISEP Pathways to Net Zero
- Environmental / Energy Management Systems Training / Auditor Training
