

TRAINING THAT DEVELOPS
REAL CAPABILITY

ISO 14001:2015 Overview (EMS)

EE015

ISO 14001:2015 Overview (EMS)

This one-day training course provides a structured overview of the ISO 14001:2015 Environmental Management System (EMS) standard. It is designed to equip learners with the knowledge and confidence to understand the core requirements of ISO 14001 and explore how these can be applied within their own organisation.

Through practical examples and real-world insights, this course supports organisations that wish to implement an effective EMS or simply improve environmental performance without seeking formal certification. It is ideal for those committed to sustainability and operational efficiency.

Duration & Price

Duration: 1 day

Public Virtual Training: £375

Delivery mode: This programme is available In-Company, and via Public Virtual Training

Dates & Locations

What's covered?

This course offers learners a clear and practical overview of ISO 14001:2015 requirements and how to interpret them in the context of their organisation. Topics include:

- Introduction to environmental management principles
- Requirements of ISO 14001:2015 and EMAS Regulation
- Initial Environmental Review (IER)
- Defining the scope of an EMS
- Environmental policy development
- Identifying environmental aspects and impacts
- Setting objectives and targets
- Operational control
- Competence, awareness and communication
- EMS audit and review
- Environmental legislation and compliance evaluation
- Comparison and requirements of standards
- Role of third party auditors/certification bodies

The course is interactive and designed to encourage active engagement. It can also be tailored to reflect the specific context, priorities and challenges of any organisation, ensuring direct relevance and meaningful outcomes.

Who should participate?

This programme is ideal for individuals involved in designing, developing, or supporting an Environmental Management System (EMS), or those wishing to reduce their organisation's environmental footprint. It is suitable for:

- Environmental officers and coordinators
- Health & safety, quality, or compliance personnel
- Line managers and team leads with operational responsibility
- Sustainability professionals and advisors

English Language Competency

A good standard of written and spoken English is important to engage effectively with this programme.

What will I learn?

On successful completion of this course, learners will be able to:

- Describe the purpose and structure of an Environmental Management System (EMS)
- Explain the key requirements of ISO 14001:2015
- Identify and assess significant environmental aspects and impacts
- Set meaningful environmental objectives and plans to achieve them
- Understand environmental planning and control
- Describe key elements of EMS audits and management review
- Recognise the importance of relevant EU and Irish environmental legislation

Learners will leave with practical insights to enhance their organisation's environmental performance.

How do we train and support you?

Our training approach is highly interactive, practical and tailored to ensure learners gain real-world competence.

- Pre-training consultation for in-company courses to customise delivery
- Access to comprehensive course materials
- Expert tutor support during and after training
- Available as Public Virtual Training or tailored In-Company delivery
- Class sizes are limited to approximately 12-15 to support personalised learning

Learners are supported every step of the way to ensure lasting value and application.

How can you progress?

This course provides a strong foundation in Environmental Management. Learners may progress to:

- ISO 14001:2015 Internal Auditor
- ISO 14001:2015 Implementation
- ISO 14001:2015 Lead Auditor
- Integrated Management Systems (IMS) training
- Environmental Legislation workshops
