

TRAINING THAT DEVELOPS
REAL CAPABILITY

Environmental Legislation

EE008

Environmental Legislation

This one-day course is designed for personnel who wish to gain an appreciation of Irish and EU environmental legislation.

The environment has become an important factor in the overall business strategy of companies in Ireland. Environmental issues are becoming increasingly complex. Traditional ways of addressing environmental issues - in a reactive ad-hoc manner - are proving to be highly unsatisfactory. Environmental laws and regulations are becoming more stringent and are proving to be extremely onerous for business.

Duration & Price

Duration: 1 day

Delivery mode: This programme is available In-Company

Dates & Locations

In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.

What's covered?

Overview of environmental legislation in Ireland

- Planning & Development Act, 2000 and Planning & Development Regulations
- EC (EIA) Regulations 1989 to 2011
- Air Pollution Act, 1987 and related regulations
- Local Government (Water Pollution) Acts, 1977 to 1990 and related regulations
- Dangerous Substances Acts, 1972 to 1979 and related regulations
- Waste Management Act, 1996 and related regulations
- EC (Control of Major Accident Hazards Involving Dangerous Substances) Regulations 2006
- Access to Information on the Environment Regulation, 2007 and amendment regulation 2011
- Protection of the Environment Act, 2003
- Carriage of Dangerous Goods by Road Act, 1998 and Regulations, 2011
- REACH Regulation
- Energy/Product Stewardship
- Energy legislation including European Communities (Energy Performance of Buildings) Regulations
- Safety, Health & Welfare at Work Act, 2005
- Impending EU environmental legislation

Who should participate?

- Personnel who are responsible for monitoring the implications of environmental legislation for their company.
- Personnel responsible for maintaining the EMS in their company.

The course will also be of interest to managers responsible for control of polluting emissions to the various media, such as wastewater effluent, gaseous emissions, hazardous and non-hazardous waste.

What will I learn?

Participants achieve the following learning outcomes from the programme;

- Have a broad understanding of Irish and EU environmental legislation.
- Appreciate the significance of environmental legislation in the context of Clause 4.3.2 "legal and other requirements" of ISO 14001.
