

TRAINING THAT DEVELOPS
REAL CAPABILITY

Waste Management / Minimisation

EE019

Waste Management / Minimisation

Most companies are unaware of the true cost of waste to their business, typically 4-5% of turnover. Growing environmental legislation and consumer pressure has increased the need for organisations to improve their environmental performance. Undertaking a structured waste minimisation programme will not only save money, but will also improve the environment, the organisation's profile and competitiveness.

This one-day introductory course is designed for all organisations that produce waste and wish to understand and develop skills in waste minimisation.

Duration & Price

Duration: 1 day

Delivery mode: This programme is available In-Company

Dates & Locations

In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.
