REACH and CLP – the Basics

HS011

REACH and CLP – the Basics

Regulatory compliance is essential for any organisation manufacturing, importing, or using chemicals within the UK and EU. This course offers a clear and practical foundation in the REACH and CLP Regulations, helping organisations understand their responsibilities and reduce compliance risk.

Learners will gain a comprehensive overview of REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) and the Classification, Labelling and Packaging (CLP) regulation. The course provides practical knowledge relevant to real-world supply chain responsibilities.

Duration & Price

Duration: 1 day

Delivery mode: This programme is available In-Company

Dates & Locations

In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.

In-Company Training

What's covered?

This practical one-day programme provides an overview of the key aspects of the REACH and CLP regulations. Topics include:

- Introduction to the REACH regulation: aims, legal framework and key stages
- Scope, exemptions, exceptions and registration requirements
- Overview of the registration process and roles of lead/member registrants
- Candidate List and Substances of Very High Concern (SVHCs)
- Introduction to CLP regulation and its connection to GHS
- Notifying, classification and labelling of substances to ECHA, online submission in REACH-IT
- CLP Notification - Submit substance data to ECHA using REACH-IT
- Safety Data Sheets (SDS): format, layout and extended SDSs
- Supply obligations and updates to REACH Annex II

The course content can be tailored for In-Company delivery based on specific sector needs.

Who should participate?

This course is ideal for those involved in the handling, procurement, or regulation of chemicals in any sector. It is especially relevant for:

- Engineering and technical personnel
- Laboratory personnel
- Procurement and purchasing personnel

English Language Competency

A good standard of written and spoken English is important to engage effectively with this programme.

What will I learn?

On successful completion of this course, learners will be able to:

- Explain the purpose and scope of REACH and CLP regulations
- Identify the substances and mixtures covered under REACH and CLP
- Understand the key stages and requirements of the REACH registration process
- Interpret obligations around labelling, classification and safety data sheets (SDS)
- Compile compliant safety data sheets and understand their structure
- Recognise the role of candidate lists and Substances of Very High Concern (SVHCs)

These outcomes are designed to provide learners with practical tools for regulatory compliance.

How do we train and support you?

This course is delivered through an interactive, practical training methodology focused on real-world application. Learners are supported through:

- Pre-training consultation to align with organisational context
- Comprehensive course notes, regularly updated to reflect the latest standards and best practices
- Real-time support from expert tutors

Class sizes are generally limited to 12-15 to support personalised learning and individual

How can you progress?

Learners who complete this course may benefit from further training in:

- Health & Safety Legislation
- Chemical Risk Assessment
- Laboratory Safety
- Life Sciences compliance training

What Our Learners Say

We believe in excellence through transparency and continuous improvement. That's why we invite all our delegates to share their experiences on [CourseCheck.com](https://www.coursecheck.com), an independent platform dedicated to genuine, unfiltered feedback. Learner insights help us not only to enhance our training programmes but also empower potential learners to make informed decisions. Click on the link below to read firsthand experiences and testimonials from past learners.
