Confined Space Entry

HS005

Confined Space Entry

Confined spaces are significantly more hazardous than normal workplaces. The hazards involved may not be unique to confined spaces, but are always exacerbated by the enclosed nature of the confined space. The resulting injuries are potentially fatal. A seemingly insignificant error or oversight while working in a confined space can result in a tragic accident. This one day course will enable participants to work safely in confined spaces.

Duration & Price

Duration: 1 day

Delivery mode: This programme is available In-Company

Dates & Locations

In-Company training programmes are customised for your organisations specific needs. Most In-Company training is now delivered virtually.

In-Company Training

Please [contact us](#) for more information on our In-Company training options
