What's covered?

On successful course completion, learners should be able to:

- Understand sustainability
- Identify how organisations impact the environment
- Identify how sustainability impacts the organisation
- Identify the benefits of good sustainability performance
- Identify key statutory compliance requirements
- Define pollution and describe ways to prevent pollution in organisations
- Identify the core principles and benefits of environmental management systems
- Identify the practical actions employees can undertake to support sustainability

Who should participate?

This course is ideally suited for those working in any job role across all sectors and has no formal entry requirements.

What will I learn?

The learner will have knowledge and understanding of:

- The main environmental, social and governance (ESG) risks and opportunities
- Compliance obligations and business drivers for change
- The main potential impacts on environment and sustainability
- How to improve sustainability performance

How will I be assessed?

This course is ISEP certified, and certificates are provided by ISEP to learners who have successfully completed the course assessment. The assessment consists of an online 20 question multiple-choice test. The test is completed through the ISEP assessment portal and candidates are sent a link upon registration to the assessment, assessments must be completed within a prescribed timeframe. Learners must achieve 70% to pass the course.

Programme accreditation

ISEP is the membership body for more than 15,000 environment and sustainability professionals worldwide. ISEP support individuals and organisations in setting and achieving globally recognised standards for sustainable practice, in turn driving the development and uptake of sustainability skills. ISEP add value for their members by providing the knowledge, connections and recognition necessary to lead change within organisations at all levels. ISEP are independent, international and apply the combined expertise of their members to provide evidence and influence decision-making, working towards a vision of transforming the world to sustainability. ISEP is committed to global sustainability, for everyone working, studying or interested in environment and sustainability.
