

TRAINING THAT DEVELOPS
REAL CAPABILITY

**ISEP Foundation Certificate in
Sustainability & Environmental
Management (AISEP)**

EE029

ISEP Foundation Certificate in Sustainability & Environmental Management (AISEP)

Climate change and biodiversity loss represent two of the most pressing challenges of our time. To respond effectively, organisations require individuals equipped with practical skills in sustainability and environmental management. This programme addresses that need.

The ISEP Foundation Certificate in Environmental Management provides learners with essential knowledge and tools to improve environmental performance and support sustainability objectives in the workplace. It also provides a pathway to professional recognition through Associate Membership of ISEP.

Duration & Price

Duration: 5 days

Public Virtual Training: £930 + £175 fees

Delivery mode: This programme is available In-Company, and via Public Virtual Training

Dates & Locations

Date	Venue	Book Date
19-20 & 23-25 Nov 2026	Virtual	

In-Company Training

What's covered?

This comprehensive course delivers a grounding in sustainability, environmental management principles and practical tools. It consists of 40 hours of guided learning delivered over 5 days.

Topics include:

- Implications of global environmental, societal and economic trends
- Sustainable business/governance and environmental principles
- Key environmental legislation and policy
- Tools, techniques and systems for sustainability performance
- Innovation for sustainable products, services and solutions
- Data collection, analysis and evaluation methods
- Research and planning for sustainable solutions
- Effective communication and stakeholder engagement
- Risk and opportunity identification techniques
- Sustainability and environmental performance improvement

The course content is highly practical and designed to be directly applicable to workplace scenarios and can be tailored for in-company delivery.

Who should participate?

This course is intended for individuals who are new to environmental management and are seeking to develop a foundational understanding of sustainability principles.

It is particularly relevant for:

- Professionals seeking to gain Associate Membership of ISEP
- Early-career environmental specialists
- Individuals in operational or compliance roles with sustainability responsibilities

No prior qualifications are required to enrol.

English Language Competency

A good standard of written and spoken English is important to engage effectively with this programme.

What will I learn?

On successful completion of this programme, learners will achieve the following outcomes:

- Understand the implications of global environmental, economic and societal trends
- Explain sustainability, governance and environmental principles and their application
- Outline major environmental policy and legislation
- Identify major tools, techniques, systems and practices used to improve sustainability performance
- Understand the role of innovation in sustainable products and services
- Collect, analyse and evaluate environmental data effectively
- Research and develop practical sustainability solutions
- Communicate sustainability information with impact
- Engage stakeholders constructively
- Use tools to identify sustainability risks and opportunities
- Recommend performance improvement actions
- Support organisational transformation toward sustainability

This foundation enables learners to apply environmental and sustainability knowledge in real-world organisational contexts, contributing to improved performance, informed decision-making and long-term strategic change.

How will I be assessed?

- 1-hour open-book, multiple-choice exam
- Completed online
- Dates set by ISEP
- Learners must achieve 70% to pass the course

How do we train and support you?

Our training is interactive, learner-centred and built around real-world challenges. Training is engaging, collaborative and practical.

Our learner support includes:

- Pre-training consultation for In-Company courses to customise delivery
- Access to comprehensive course material that is regularly reviewed and updated to reflect the latest industry standards and guidance
- Flexible delivery options to suit different needs:
 - onsite and live virtual training for your team
 - scheduled virtual public courses for individuals to join independently
 - Real-time support from expert tutors throughout

Limited class sizes (typically 12) to support personalised learning and individual support

Programme accreditation

- This course is certified by **ISEP**, the Institute of Sustainability and Environmental Professionals.
- Successful completion of the foundation certificate qualifies learners for **Associate Membership** (AISEP), offering professional recognition and providing access to member benefits including networking opportunities, exclusive events and member publications.
- This course is an entry point for further progression to the **ISEP Certificate in Environmental Management** leading to **Practitioner Membership**.
